Physician's Referral for Acupuncture Treatments

Thank you for referring your patient to the American Institute of Alternative Medicine (AIAM) Acupuncture Faculty and Intern Clinics for treatment. State of Ohio law requires a physician (MD, DO, Podiatrist, or Chiropractor) referral or prescription for acupuncture treatments. This form complies with state requirements.

AIAM offers the only accredited acupuncture training program in the State of Ohio. There are only 57 programs in the US and the next closest are in Chicago, NYC, or the DC area. It is a Masters Degree level program consisting of 9 full time twelve-week quarters, 2,170 clock hours which include 885 clock hours of Acupuncture and Related studies; 505 clock hours of Bio-Medical Science related materials; 690 clock hours of Clinical Training; and 90 clock hours of Professional Development including counseling, communications, ethics, and practice management. The design of the acupuncture program thoroughly prepares students for entry-level careers as an Acupuncturist, Diplomate of Acupuncture (National Certification Commission for Acupuncture and Oriental Medicine).

The Acupuncture Faculty clinic is open 7 days a week with clinic appointments available from any of the acupuncture clinical faculty depending on their academic load. Prices are \$75 for the first treatment and \$60 for follow up treatments. Clinical faculty treat patients and these appointments, with client permission, are available for observation by interns as part of their clinical training.

The Acupuncture Intern clinic is open 7 days a week as well. Prices are \$40 for the first visit and \$30 for follow up treatments.

Patient's Name _____ Date _____
Condition to be treated _____
Restrictions, if any, placed on proposed treatment _____
Name of referring physician _____
Address _____
Phone number for consultation during normal business hours _____
Phone number after normal business hours _____
