

Dear Friend,

Thank you for your interest. We appreciate your interest and want to assure you that your confidence is well placed. Since 1994 we have specialized in programs that are designed for the success of our graduates. Building a strong foundation in the understanding of the human body, a compassionate understanding of the human spirit, palpatory skills and abilities to discover and treat musculoskeletal problems, and an understanding of businesses, law and ethics so that they can run a successful practice.

Some **AIAM exclusives** include:

- **Programs tailored to the success of our graduates.** We specialized in Therapeutic Massage, Chinese Massage, and Acupuncture. This means that there are no other students from other programs in your classes, and no other classes from other programs that you have to sit in.
- **Stable and experienced faculty.** Our faculty are all specialists and successful in their fields. Our faculty still operates and works in their private practices. They bring a wealth of real life to the classroom. They love teaching and it shows. What you learn at AIAM will help you become licensed and successful in your practice.
- Not only do we have a student clinic, but also it is **your student clinic**. You learn how to market, and are given a class budget to actually market your clinic. You learn how to run the clinic, how to answer the client calls, how to get patients onto your table and how to keep them coming back! Learn how to develop a wellness or treatment plan that brings them back. **All essential skills that will enable you to have a rewarding career for the long term.**
- You learn how to give a **relaxing Swedish massage**, you are introduced to **spa techniques and other massage specializations**, and learn how to treat musculoskeletal disorders with neuromuscular therapy. **AIAM is the only school in the state of Ohio that includes neuromuscular therapy in the basic massage program.** Your patients come to you to feel better and AIAM teaches you how to do that.
- **AIAM is the only school in the state of Ohio offering Chinese massage therapy.** Therapeutic massage therapy focuses on the muscles and structure, Chinese massage therapy focuses on energy and balance. It is based on traditional Chinese medicine that consists of Chinese massage therapy, Chinese herbology, and acupuncture.
- **AIAM is the only school in the state of Ohio in candidacy for ACAOM accreditation for our acupuncture program.** This is necessary for our graduates to be eligible to sit for their national acupuncture exam. AIAM is one of only 50 ACAOM candidate or accredited acupuncture schools in the United States. Acupuncture is growing by 50% each year, both in Ohio and nationwide.
- Financial aid is available for those who qualify, monthly payment plans and other financing options are available for all programs.

**Call us today to start your new career in
Therapeutic Massage, Chinese Massage, or Acupuncture!
Fall deadline is August 14th.**
